Bus Commute Companion

Presentation By: Azriel Cuellar, Victor Tillet, Levi Coc
Floyd Ack, Daniel Garcia

Our Company

Aims to convert a traditional process, often done with pen and paper, into a digital experience.

Problem

- Unreliability of Schedules
- Tickets having little to no meaning. (Wherever applied)
- Standees
- No Central Management System

Solution

Centralized Location Where Users Can Purchase Tickets & View The Bus Schedule
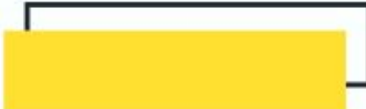

StakeHolders/Actors

❑ **Passenger** - who will be allowed to make purchase tickets, view schedule and view payment & booking history

❑ **Bus Company Manager** - has ability to alter bus schedule, change pricing & route information and view passenger information

❑ **Ticket Agents -** has ability to cross-check individual tickets whenever necessary.

Use Cases To Be Tested

- ❑   View Booking History

- ❑   View Payment History

- ❑   Edit User Profile

- ❑   Search Trip

- ❑   Reschedule Ticket
